

# HEALTH CARE IS BUSIER THAN EVER.

KNOW YOUR OPTIONS  
FOR IMMEDIATE CARE.

## WALK-IN CARE LOCATIONS

Treatment of minor illnesses or injuries, especially good if you are unable to see your primary care provider.

**TYPICALLY OPEN EVERY DAY,  
MORNING - EARLY EVENING**

## URGENT CARE LOCATIONS

Treatment for serious, yet non life-threatening conditions, often with shorter wait times than the emergency room.

If you have an immediate need for medical attention, consider urgent care or walk-in care locations. As always, dial 911 for any life-threatening injury or illness.

We appreciate your patience  
and understanding.
